

The Anaconda Standard.

VOL. II.—NO. 263.

ANACONDA, MONTANA. WEDNESDAY MORNING, MAY 27, 1902.

PRICE FIVE CENTS.

CASH CLOTHING CONCERN

45 EAST PARK ST., BUTTE.

THE
COLD
WEATHER

That we have been having for the past week has had a very disastrous effect upon the sale of our light weight suits. This we cannot stand as we must turn our stock over a certain number of times every year. We have, therefore, applied the knife and cut so far into the profits that there is little or nothing left. You should see them Fine, nobby, bright goods going for nothing, but if we are willing you need not kick. We are still continuing our sale on \$12 suits but as they are going very rapidly you had better pick one before they are all gone. We have only a limited number left and expect that they will be gone before the end of the month. We also wish to announce that we have purchased a large part of the stock of one of the largest furnishing goods houses in the United States at 57 cents on the dollar and we are prepared to give our customers the benefit of our purchase. It includes Underwear, Overshirts and Hosiery. We are now selling Underwear at 50 cents a suit that is well worth \$1.50, and at \$1.50 that could easily be sold for \$2.50. The Shirts include 100 dozen Fancy French Flannels that we have marked 75 cents and worth fully \$2.00. At higher prices from \$1.00 to \$2.00 we have neat Silk Striped Madras goods that will cost you from \$3 to \$4 in any store in the city. Our line of Hosiery includes regular made, in plain made, black, fancy or brown at 25c. goods that have never been sold for less than 40 cents before.

To parties living out of town that desire to take advantage of this great sale we will say that if you will mail us an order we will send it C. O. D. with the privilege of examination so that you can return goods if not satisfactory, at our expense.

STRICTLY CASH.

BOTH WERE FOUND DEAD

A Colorado Woman and Her Child Murdered in Kansas.

THE MURDERER ARRESTED

A Heinous Crime Committed by a Supposed Friend—The Case Wrapped in Mystery.

GALENA, Kas., May 26.—Several weeks ago, Mrs. Blanche McKee, from Colorado, came here to visit her mother. She was accompanied by her two children aged 6 years and two months respectively. She had not been here long when William Alvord, also of Colorado, appeared on the scene. He and Mrs. McKee evidently were on very intimate terms. Sunday afternoon Alvord was walking in the woods with Mrs. McKee and her two children. The oldest child returned home at 5 o'clock. Mrs. McKee and youngest child were never again seen alive. A searching party to-day discovered the bodies of the mother and child hanging to a tree in the woods where they had been walking Sunday. Alvord was arrested Sunday night on suspicion of murder. When he heard the news of the finding of the bodies to-day, he attempted suicide by hanging, but was cut down in time to save his life.

ENGLAND'S FINANCES.

Some Questions Asked by a Member of the Commons.

LONDON, May 26.—On the second reading of the budget bill in the commons to-day, Harcourt attacked the policy of Goschen, claiming it was a subversion of the recognized principles of English finance. The house was told, he said, that the government's free education plans would absorb over a million pounds, but the house was not informed as to the method by which the money would be applied. Again, the financial system which the government followed in borrowing from future revenues for naval expenditures was evidently erroneous and destructive to sound finance. He wanted to know the intentions of the government in regard to the coinage of gold and also what part the government took in connection with the Baring guarantee. The course in the latter, he thought, was a dangerous precedent. Goschen, in reply, said the government had a precedent for their financial policy in connection with naval expenditures, in the course taken by liberals in regard to army localization. Touching upon the subject of the Baring guarantee, Goschen said no part of this guarantee was taken, directly or indirectly, by the government. The coinage question would not involve an additional burden to the treasury.

ONE DAGO LESS.

A Murderous Italian Meets With Hasty Judgment.

DENVER, May 26.—This evening, while Willie Crowley, aged 18 years, was driving a cow on the outskirts of the city, near the Platte river, the cow jumped into the garden of an Italian named Talarigo. The boy followed the cow, endeavoring to drive her out. Talarigo and another Italian came out of the house and caught the boy and started toward the house, one of the Italians drawing a knife as they went. Some of the companions of the boy came to the rescue when Talarigo drew a revolver and fired, mortally wounding Cooney Glance, aged 20. A crowd of men then started after the Italian with the intention of lynching him, when he ran to the river, jumped in, and started to swim across. The river was swollen by the recent rains and he drowned.

VANDERBILT'S MILLIONS.

Henry Allen, a Nephew of the Commodore, Wants Lucr.

NEW YORK, May 26.—Action was begun in the supreme court to-day in which Henry Allen, a nephew of Commodore Vanderbilt, seeks a half-million slice of the estate left by the latter. Allen states that by his uncle's will \$4,500,000 was given to the commodore's young widow and 10 children (by his first wife), which he left, but the rest of the estate \$1,250,000, went to W. H. Vanderbilt. The mother of the plaintiff began a contest and the plaintiff claims the contest was dropped on a compromise. Suit is to recover the promised amount which was never paid.

AN INJUNCTION SERVED.

Will Bother the National Trotting Register Company.

NEW YORK, May 26.—An injunction was granted by Judge Ingraham to-day restraining J. B. Wallace, president of the Wallace American Trotting Register, from transferring the stock and plant to the recently organized National Trotting Register company of Chicago. The proceedings were brought by Charles D. Sibley, who has printed the work since it was first published. Sibley says he has expended considerable money in type, etc., in the belief he was to continue to do the printing of the work indefinitely.

AT OR MUCH WORK.

NEW ORLEANS, May 26.—The grand jury found an indictment against McCrystal and Cooney, two of O'Malley's assistants, for attempting to bribe. The jurors are not in a pleasant frame of mind, for, after investigating the bribery charges for over a week, they have made the discovery there is no law to punish the offenders. The bribery act covering the matter has no penal cause.

French Tariff Duties.

PARIS, May 26.—The chamber to-day adopted tariff duties of 8 francs per 100 kilograms on swine, 10 francs per head on cows and oxen and 15 francs per head on sheep. The protective proposals of the tariff committee were generally approved over the more moderate tariff of the government.

Her Majesty's Ship.

CAPTOWN, May 26.—It is rumored here H. M. S. Argentine has landed a force and has occupied Beira on behalf of the British government.

THE BAPTISTS' MEETING.

Close of the Missionary Convention at Cincinnati.

CINCINNATI, May 26.—At this morning's session of the American Baptist missionary union the work in the different missionary fields was discussed. The committee on place and preacher reported Philadelphia for next year and Rev. W. W. Boyd, of New Jersey, as preacher. The report of work in Africa, Japan, Burmah and other places, invariably showed advancement. Rev. W. F. Taylor, of Indianapolis, in speaking of Japan, said the people of that country have become conscious of their strength, "Japan for Japan." These proved a hindrance to missionary work, but not altogether evil. In Africa Rev. Mr. Burieck said there is disappointment in securing colored missionaries and in securing a welcome for them there. The Africans want white missionaries.

At the closing session this afternoon officers were elected as follows: President, George W. Northrup of Illinois; Rev. George H. S. Burrage of Maine, recording secretary. A number of addresses were made by missionaries who were present. Missionary Borchert of China gave interesting facts as a medical missionary, and urged larger attention to this phase of mission work, and influence, pleading that each station have a medical missionary. Rev. Dr. White of Minnesota offered a resolution to this effect, which was adopted. Dr. Baldwin read a report on European missions. "Romanish," he said, "is a great hindrance to the cross. Missionaries in these peculiarly difficult fields call for large sympathy."

Several missionaries spoke on the same subject. This afternoon a joint meeting of the mission societies of women was held, and many addresses were made, setting forth the work performed. In the evening, although the missionary union had formally adjourned, Pike's opera house was filled with an attentive audience, Dr. Mabie, with the aid of a stereograph, giving illustrations of many mission fields and workers. The work of the anniversary meeting then concluded with a benediction by Rev. Dr. Duncan.

APPOINTED A NEWSPAPER MAN.

Governor Patterson's Action in Appointing Bardsley's Successor Ignored.

PHILADELPHIA, May 26.—The city commissioners met this morning, and, ignoring the appointment by Governor Patterson of a successor to City Treasurer Bardsley, proceeded to elect R. C. Oellers, business manager of the *Record*, to fill the office in question. As to who has power to fill the office of treasurer has given rise to much controversy and will undoubtedly be left to the courts to decide.

Bardsley is under guard at his house, his condition still being too serious to warrant his removal. He is unable to obtain \$50,000 bail.

PHILADELPHIA, May 26.—Before the city council committee investigating the affairs of City Treasurer Bardsley to-day, National Bank Examiner Drew testified as to what he knew regarding the affairs of the Keystone bank. The most surprising testimony yet given, however, was that of George Hume of the firm of Robert Glendening & Co., bankers and brokers. Hume said Bardsley, from January to September, last, was a heavy operator in stocks through his firm. In that time he purchased for him between \$500,000 and \$600,000 worth of stock of various companies. It was purchased outright by Bardsley and never on margins. During December Bardsley closed all his holdings in these stocks. Hume was unable without the books to give the amount lost or gained by Bardsley in the transactions, but as far as he remembered it was small either way. Hume's firm borrowed \$200,000 from Bardsley during the financial stringency last fall, paying the prevailing rate of interest.

Struck An Old Blast.

LEADVILLE, May 26.—Yesterday, while Morris Donovan and Adolph Kaufman were working a drill in the Ivanhoe tunnel, the drill struck on old charge of giant powder, causing a terrific explosion and literally tearing into fragments both men. Several miners working near were slightly injured.

Three Will Die.

CENTRALIA, Wash., May 26.—While grading the streets this morning a laborer fell into an old well and was overcome with foul air. Three other laborers who went to his assistance were also precipitated into the well in the same way. The men were brought to the surface but only one can recover.

Pillaged a Mission.

SHANGHAI, May 26.—The statement that a curatorial mission at Nanking was attacked and pillaged by the natives is correct. The inmates managed to escape. A British cruiser was ordered to Nanking to protect British interests, Chinese troops were also dispatched to the scene.

Sawed Off the Lock.

BOSTON, May 26.—It was discovered to-day that Jesse Pomeroy had drilled and sawed off the lock from the door of his cell at the state prison. The drill and saw were found in his cell and how Pomeroy got them is a mystery. He and another convict who tried to escape have been placed in "solitary."

Four For Cash Bonds.

WASHINGTON, May 26.—A treasury circular in regard to the 4½ per cent. loan will probably not be issued before next Monday. In it the department will give notice of its readiness to redeem, on the last of September, \$50,000,000 of the 4½ per cent. bonds outstanding in all cases where holders are not willing to extend them at an interest rate of 2 per cent.

A Panic Prevails.

CORONA, N. J., May 26.—There has been repeated disturbances and conflicts here between strikers and police. Many of the strikers were wounded and many others arrested. The majority of stores throughout the city are closed and a panic prevails among the better classes.

Well Known Editor Dead.

NEW ORLEANS, May 26.—Col. Frank A. Bartlett, a well known newspaper man, brother of ex-Governor Bartlett of California, is dead, aged 62.

BEHRING SEA SEALS

Prompt Action Will be Taken to Protect the Fisheries.

SEASON WILL SOON OPEN

The Matter to be Considered by the President and Cabinet—Poaching Vessels Afloat.

WASHINGTON, May 26.—The seal fisheries matter was considered at the cabinet meeting to-day at length, but no conclusion reached. Secretary Foster and Assistant Secretary of State Adee will have a special conference with the president to-morrow, with a view of determining a plan of action. The president fully appreciates the necessity of prompt action in the matter, and is doing all in his power to arrange it that there may be no further delay in the departure of revenue cutters to the Behring sea for the purpose of protecting the interests of the United States. If those vessels start now they would not reach the fisheries until the middle of June, or 15 days after the opening of the season, and it is understood 49 poaching vessels are now in the vicinity of the Behring sea, threatening pursuit and slaughter of seals. The North American Commercial company's steamer left San Francisco for the seal islands about a week ago and will possibly arrive there by the end of the month, when the employees of the company will at once proceed to take seals and continue to do so until the entire number allowed by the law is secured, unless some order is received from officials at Washington to the contrary.

FLEEING FROM MOSCOW.

Exiled Jews in a Fearfully Destitute Condition.

ODESSA, May 26.—A rumor current here that the czar intends to make a thorough clearance of the Jews from St. Petersburg, Moscow and Odessa, caused great consternation in the Jewish colony in this city. The Jewish residents here believe this alarming report more readily because they know the government has been requested to interfere in behalf of the Christians of this city, four-fifths of the increasing trade of Odessa, it was claimed, being wholly in the hands of the Jews. Crowds of Jews arrive daily from Kiev and elsewhere and embark for Jaffa. Many of these people are in a destitute condition, wealthy Jews declining to render them any assistance.

ST. PETERSBURG, May 26.—M. De Pohlenstoffs, chief of the holy synod, has submitted to the council of the empire an ordinance forbidding Hebrews to observe the Hebrew Sabbath, by closing stores or business places, or refraining from work, and compelling Hebrews, instead, to close on Sundays and other days observed by the Greek church.

SENATOR CALL RE-ELECTED.

Anti-Call Members Refuse to Cast Their Votes.

TALLAHASSEE, Fla., May 26.—Fifty-four votes were cast in the joint session of the legislature to-day for United States senator, of which Call received 51.

Nearly all the anti-Call Senators left the city to break the quorum if possible. The sergeant-at-arms was sent after them. When the joint session was called to order, the anti-Call men refused to answer to their names, but on call of the roll 54 legislators responded. On vote, Call had 51 and was declared elected.

Historian Fyffe's Trials.

LONDON, May 26.—C. A. Fyffe, the historian, was again charged at the Corydon police court with an indecent assault upon a lad. Fyffe, it will be remembered, was so overwhelmed with the charge brought against him that, on April 27, he attempted to commit suicide. After the dean of Westminster, Horace Davy, Sir George Grove and others had given testimony as to the honorable character of the accused, he was committed for trial.

Was Shipped Away.

NEW ORLEANS, May 26.—When the case of Deputy Sheriff White, charged with bribery in connection with the Hennessy case, was called to-day Leon Burthe, the principal witness for the state, was found to be missing. An inquiry elicited the fact that he had gone to St. Louis, after the summons was served on him. The shipping away of the principal witness in the first of the bribery cases called is regarded as strong circumstantial evidence against the accused.

Were Children's Clothes.

SAN FRANCISCO, May 26.—Captain E. L. Zalinski, of the Fifth United States artillery, stationed at Presidio, and inventor of the Zalinski dynamite gun, has been ordered under arrest by General Graham, his commanding officer, for violating orders prohibiting officers or enlisted men from appearing upon the reservation in civilian dress. A court martial investigation may follow.

Purchased or Leased.

ST. PAUL, May 26.—A *Pioneer Press* special from Tacoma, Wash., says: The Canadian Pacific railroad has either leased or purchased outright the Bellingham Bay and British Columbia railroad, extending between Surma, on the boundary line, and New Wia-com. The Canadian Pacific steamship Premier will make daily trips between Tacoma and Whatcom.

A Bishop Threatened.

LONDON, May 26.—The bishop of London, Frederick Temple, received a mysterious letter last week, warning him that an attempt would be made to assassinate him at the ordinance service, at St. Paul's cathedral Sunday last. The bishop placed the letter in the hands of the police, who took steps to protect the prelate, but could not find the writer of the letter.

No Woman Wanted.

LONDON, May 26.—The commons refused to-day to pass the bill legalizing the election of women as members of county councils.

RIOTS AT PARIS.

Trouble Between the Police and Striking Bus Drivers.

PARIS, May 26.—The strike of stage drivers continues to-day and is causing much excitement. Enormous crowds of people surround the depots of the omnibus company, around which there is a strong guard of police and troops. The company, assisted by the police, to-day attempted to run several stages. The strikers first stoned them, then made a charge, driving away the police. Drivers were dragged from their boxes and pounded vigorously, while their stages were overturned. The efforts of the police are useless in the face of the overwhelming mob. At one time it was thought the troops would be called upon, but it is expected they will not be ordered out unless the situation becomes very serious. The police were later reinforced and made several arrests.

Public sympathy is with the strikers, who are out for shorter hours and the reinstatement of some of their companions who were discharged because they belonged to the union. Many of the newspapers of the city have opened subscriptions on behalf of the strikers and their families in order to enable them successfully to push their fight.

It is announced this evening that the government has decided to intervene in the stage drivers' strike. It is added the government's determination to interfere is solely for the purpose of assuring conveyance for the public who naturally suffer considerably from a total suspension of stage service.

Later.—The omnibus strike has ended in a victory for the strikers.

WON EASILY.

Prize-Fighter Dooley Was Not in It With Choyinski.

MELBOURNE, May 26.—The prize fight which came off here yesterday between Choyinski and Dooley was the hottest contest in the history of the ring. The result showed that Dooley was no match for Choyinski, for the latter knocked him out in one minute and 11 seconds. From the moment the men entered the ring Choyinski adopted bustling tactics and in a short time he drove Dooley to the ropes. When the men faced each other in the second round it was further demonstrated that Choyinski was the superior of Dooley. The latter was completely overpowered and when the 11 seconds of time allowed for the second round expired, Choyinski made a dive at Dooley and knocked him completely out. Choyinski was the favorite in the betting at odds of 5 to 4. Choyinski received no punishment at all.

SILVER CERTIFICATES.

A Decision Regarding the Issuance of Treasury Notes.

WASHINGTON, May 26.—Attorney-General Miller has decided the secretary of the treasury has no authority under the act of July 17th, 1890, to issue treasury notes provided for by that act, except in payment for bullion purchased, but that gain or seigniorage arising from the coinage of bullion under the act, when paid into the treasury becomes part of the general cash, and may be used like any other. The seigniorage fund now amounts to \$4,000,000 and under this decision the issue of silver certificates may be increased to that extent. The secretary of the treasury is also considering the proposition to issue silver certificates against the 20,000,000 silver half-dollars now in the treasury.

PLENTY HORSES' TRIAL.

The Prisoner Can Talk English—Drawing to a Close.

SIOUX FALLS, S. D., May 26.—The government closed its case in Plenty Horses' trial to-day with the testimony of eye-witnesses of the crime. Thomas Flood, interpreter for Pine Ridge agency, testified that the prisoner could speak English fluently. The defense introduced the testimony of American Horse and William Thompson of Fort Keogh, Mont., and will probably close the case to-morrow.

A FATAL KNOCK-OUT.

A Prize Fighter Dies From Injuries Received in the Ring.

LYNN, Mass., May 26.—James Burns of Lynn, who was knocked out in a battle with Harry Tracy of Cambridge on Saturday evening, died this morning. The knock-out blow broke a blood vessel in his brain and he never recovered consciousness. Tracy has been arrested on the charge of manslaughter. The arrest of the referee, seconds and management of the Lynn Athletic club, before which the fight took place, will follow.

KANSAS FARMERS.

Alliances to Act Upon the Clevelander Platform.

TOPEKA, Kas., May 26.—The Farmers' alliance of Kansas is making preparations for a grand ratification of the Cincinnati conference work. At the regular meeting of the 3,000 sub-alliances of the state, at which a platform will be considered, a vote was taken and the report forwarded to the headquarters and to reform papers. The sub-alliances are charged to be very deliberate in their action and to give every proposition thorough examination and discussion.

In Reg. Western Style.

BANGOR, Me., May 26.—The train which left Bangor for St. John last night was held up just beyond Enfield by four men, who fired at the engineer and cars. The engineer pulled out before anyone was hurt by the robbers, who evidently were after the contents of the baggage and mail cars.

Three Miners Perish.

BRECKENRIDGE, Colo., May 27.—At the Little Corpora mine this morning, William Barkie, John Dierks and D. Benson broke into an old incline full of foul air and were suffocated. Elmer Miller was overcome but revived after being taken out.

A Treaty with Bolivia.

PARIS, May 26.—Agents of the Chilean insurgents announce that the congressional party has concluded a treaty of friendship with Bolivia.

SUPPLIED WITH COAL

The Esmeralda Not Anxious to Leave Acapulco.

MEXICANS AND CHILIANS

Insurgents Find Friends in President Diaz's Republic—Sensational Rumors Afloat.

NEW YORK, May 26.—A private letter received to-day from the City of Mexico, written May 19, by a business man who has ample facilities for getting correct information, says there is much reason to believe the Mexican authorities are quietly giving aid to the Chilean insurgents. The Esmeralda has been able to get all the coal she wanted, and private advices from Mazatlan, report that war materials brought from San Francisco, had been transferred early this morning to ships belonging to Chilean insurgents. The same letter mentions rumors of a secret treaty between Mexico and San Salvador against Guatemala.

CITY OF MEXICO, May 26.—The *Diario del Hogar* publishes a letter from Acapulco, which says the Chilean insurgent steamer, Esmeralda, on entering that port saluted the Mexican flag and the Mexican government in return saluted the Esmeralda's flag, thus making it an open question whether this was a recognition by Mexico of the Chilean insurgents. The captain of the Esmeralda in an interview at Acapulco a few days ago, said it was not his intention to take coal by force or he would have done so before. He also said that he was not in a hurry to leave port, but was waiting for further instructions.

PHILADELPHIA PICKINGS.

Railroad Contractors at Work—Bi-Metallic and Granite Mines.

Special to the Standard.

PHILADELPHIA, May 26.—Greenough & Massey, the railroad contractors, arrived to-day and are making arrangements to commence work on the Bi-Metallic spur on Monday next. They will employ a large force and expect to complete the work in about six weeks.

Work was commenced yesterday clearing away buildings and grading for a new hoist at the Granite mine. It is said that it will be put down about 80 feet north of the present one and a new hoist will be purchased, capable of sinking three or four thousand feet. Ground was also broken at Runsey for the long talked of tunnel from the Runsey mill to Granite, about half way between the two points, on the Cleveland lode. An air shaft is being sunk, and when it arrives at the proper depth, drifts will be started both ways which will give the tunnel four faces. The Granite is yet a great property and the owners appear to have unbounded confidence in it.

The police were busy again today and several cases were disposed of.

SMASHED PREVIOUS RECORDS.

Much Work Accomplished By United States Supreme Court Judges.

WASHINGTON, May 26.—The United States supreme court during the term ending to-morrow, completely smashed the previous high record of cases disposed of at one term of court, settling 617 cases, against 470, which heretofore has been the largest number passed upon at a single term. The number of cases presented was unusually large, but of them only 15 which have been argued go over until the next term for decision, and it is probable the opinions in these cases will be written for announcement soon after court reconvenes.

Not Confederationists.

PITTSBURGH, Pa., May 26.—The River Miners' union of the Pittsburgh district met to-day and, after censuring the local officers, formally withdrew from the United Mine Workers' association of the Federation of Labor. In taking this action, the resolution stated, they would rather have struck for eight-hours and lost on May 1 than be parties to the back-down of the Federation of Labor of that district. They will at once enter the Knights of Labor.

Before the Deputies.

PARIS, May 26.—Freiheit, in the chamber of deputies, referring to the arrest of Turpin, an officer of the French territorial army and agent for the Armstrong gun works, on a charge of high treason, denied any comments had been abstracted from the ministry of war. No accurate plans have been published in connection with the manufacture by Melotte. There is no ground for charges that treachery was imperiling national defence.

Only a Fake.

LINCOLN, Neb., May 26.—Governor Thayer to-day received a letter from President Harrison in relation to the alleged interview concerning the Thayer-Bloyd controversy. The president says simply that it is unnecessary to make an explanation, as he could not and would not have indulged in a discussion of the gubernatorial mudslide while a guest of the people of Nebraska.

An Imperial Rescript.

ST. PETERSBURG, May 26.—Upon the arrival of the czar with at Vladivostok, an imperial rescript will be published throughout the Russian empire directing the czar with to lay the first sod of the Vladivostok section of the trans-Siberian railway. A ukase will accompany the rescript, signaling the event by special acts of clemency towards the convicts of Siberia.

Republicans in Clover.

NEWPORT, May 26.—Members of the legislature were duly sworn in to-day. The republicans who have a large majority will elect their state candidates as follows: Governor, Herbert Land; lieutenant governor, Henry A. Stearns; secretary of state, George H. Utter; attorney general, Robert W. Burbank; general treasurer, Samuel Clark.
